

Microsoft Security Copilot

Prompting in Microsoft Security solutions

Plugins for Microsoft and third-party security products

servicenow

Your context and content
Event logs, alerts, incidents, & policies

Microsoft Security trust boundary

Customer data is not stored outside the compliance boundary or used to train foundational models

Large Language Model (LLM)

Azure OpenAI instance is maintained by Microsoft. OpenAI has no access to the data or the model

Data flow

(🔒 = all requests are encrypted via HTTPS)

- 1 User prompts from Security products are sent to Security Copilot
- 2 Security Copilot accesses Plugins for pre-processing
- 3 Security Copilot sends modified prompt to LLM
- 4 Security Copilot receives LLM response
- 5 Security Copilot accesses Plugins for post-processing
- 6 Security Copilot sends the response, and app command back to security products
